

## ● SOFIA sofa and daybed

---

SOFIA is a sofa and daybed, reduced to its essentials. It consists of basic single parts with no frills: side, back and seating elements with upholstery and cushions.

# ● SOFIA sofa and daybed

The individual parts are assembled with a simple plug system, making SOFIA firm and solid on the ground. SOFIA is especially simple in its assembly without screws and can be handled easily in case of moving house.

The applied material is especially sustainable and resource-conserving: untreated stone pine. The pine wood comes from the woods of the Pustertal valley; the pleasant smell of the wood has a relaxing effect. SOFIA can also be used as a guest bed.

The cover fabric can be freely chosen. As a special edition, we offer a linen fabric which is woven exclusively for this sofa by Hermann Kühebacher from Niederdorf. More types of wood and different upholstery fabrics can be delivered on demand. SOFIA is custom-made according to the customers' individual demands and wishes.

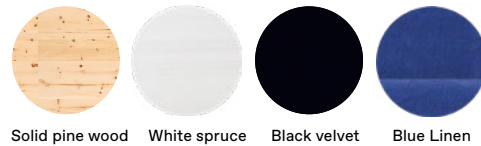

## ● SOFIA specifications

SOFIA is a sofa and daybed, reduced to its essentials. Upon request, other types of wood and different fabrics are available. SOFIA is made to measure according to individual wishes.
