

EVA Modular kitchen

EVA is a modular kitchen consisting of a base structure, individual cupboard modules and a countertop. The modules are latched onto the base and the countertop then holds the entire block together.

EVA Modular kitchen

The base is equipped with height-adjustable legs, which make it easy to adjust the kitchen to uneven floors. The modules, which can also be made to measure, can be adapted, rearranged and added to at any time.

Our furniture is made from birch plywood panels. This solid panel material is of a premium quality and a great alternative to chipboard or MDF (fibreboard). It is a long-lasting and is therefore robust enough to withstand the high demands of day-to-day use. Its high solidity ensures that the furniture retains its stability and functionality for years to come.

Produced in Welsberg, South Tyrol.
Concept & Design: Georg Agostini, Lorenz Sternbach

EVA Specifications

The kitchen block is available in several lengths. It can be flexibly designed using the three standard modular units (standard widths: 90, 60, 45, 35cm). Assembly and disassembly are simple and quick so that the kitchen can survive moves or renovations unscathed.

Colours:

- Fronts: Select from all available materials and their specific colours.
- Base and worktop: Available in HPL colours only.

EVA Materials

- Birch Plywood, oiled

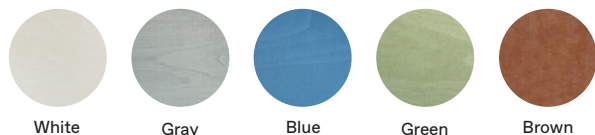

- More information

- 3-layer panel Spruce/Stone pine

- Birch Plywood, lacquered

- Birch Plywood with HPL coating
