

# SOFIA

## Sofa and daybed

SOFIA is a sofa and daybed reduced to the essentials. The basic components are joined together using a special slotted system, without using any screws. Includes seat cushions and pillows made of linen.

# SOFIA Sofa and daybed

The individual elements are joined using a simple slotted system. Sturdy and stable, SOFIA can be assembled easily without screws or additional tools. SOFIA is easy to transport and can be easily moved to a new location.

The material used is sustainable and resource friendly: untreated natural stone pine. The stone pine wood comes from the Puster Valley forests and its scent has a relaxing and soothing effect. SOFIA can also serve as an extra bed for guests. The fabric of the covers can be chosen freely. As a special edition, we offer a linen fabric which is woven exclusively for this sofa by Hermann Kühebacher from Niederdorf.

Produced in Welsberg, South Tyrol.

Concept & Design: Georg Agostini, Lorenz Sternbach
